The Spartan Warrior Testosterone Boosting Secret...

In World History there has Never Been a Civilization More Known for their Strength and Stamina than the Spartan State.

The men of Sparta were second to none.

At the height of their power, between the 6th and 4th centuries BC it was commonly accepted that **“One Spartan man was worth several men from another state”**.

They were the most feared warriors in the world, never accepting defeat.

They were confident, motivated and **NEVER** had a lack of energy.

They could train and fight for hours at a time without facing exhaustion.

This rugged group of well-trained warriors represented the peak of male physical performance, easily overpowered other men.

It is well known that they were heavily muscled and lean. It was also well documented that they stayed in this condition well into their aging years, allowing them to fight.

Additionally, their supreme health lead to astounding male fertility, allowing large Spartan families to grow all throughout the State.

It was historically noted that their strength and muscle structure allowed them to be powerful lovers.

In many ways, Spartan men are the type of men **WE all want to be**.

Strong, muscular, lean, fearless and fertile.

Now, it has been well documented that the Spartans had an intense training regimen, that lead to incredible personal fitness.

However, it has **NOW** been divulged that they had a **testosterone boosting secret** that was a staple of their civilization.

Men would do it daily to maintain their peak hormone levels, allowing them to maintain lean and powerful physiques well into their golden years.

When other men would shrivel, **they** would stay young, strong and full of energy.

Their secret involves the **ONLY** source of natural testosterone ever medically discovered.

What they would consume daily as dietary ritual was actually fueling their testosterone levels, empowering them to stay strong, lean and fertile.

They had the testosterone “**male advantage**” before anyone knew the power of testosterone.

Now you are moments away from knowing this male enhancing secret that will keep you full of testosterone well into your aging years.

**Caution – This is So
Strong It is Banned in
Sports...**

You are **NOT** reading about a natural testosterone booster.

You are reading about **100% pure naturally extracted testosterone**.

As soon as it was discovered and tested, this natural hormone was added to the worldwide banned list.

Yes, plant based testosterone is banned in sports **JUST** like synthetic testosterone.

It will improve performance exactly like its pharmaceutical counterpart.

You should be aware, if you are a professional athlete or you compete in “**tested**” sports, plant based Testosterone will cause a “**positive**” test.

To be clear, any type of Testosterone is banned in all professional sports, the Olympic Games and most “tested” amateur competitions.

It is pure, **plant based testosterone** and will immediately **boost your free testosterone levels**, which would directly show on a performance enhancer screening.

If you aren't tested, this is a safe and powerful way to maximize your male human performance every single day!

Yes! you are minutes away from learning about the natural performance enhancer that is taking the medical world by storm.

Hi,

My name is Clint Winters, I am a natural health researcher, author and TV personality.

I have to say, if you are a man over 40, you are going to love every single word of this page.

This is most likely what you have been looking for, for years.

Let's cut right to the chase, if you have grown up in the United States, you have heard about the use of testosterone, a commonly known anabolic steroid.

In the 80s and 90s when you mentioned the S word you would think about the physiques of Arnold Schwarzenegger and Hulk Hogan.

However, this controversial substance also came with an awful and negative stigma.

And then our favorite athletes started to get caught using this powerful substance as they broke records and put on strength and muscle at inhuman rates.

And then, we can't forget about Hollywood, those rumors would swirl for years as actors would transform into ripped specimen's in a matter of weeks.

Back then, it was looked down upon, but I think every man wished there was a way to get those types of results.

And then there was a major shift.

Testosterone left the locker room and moved to the board room.

Elite and aging men all over the country started supplementing to get an edge in life.

They would wake up feeling more confident, leaner, stronger and much more desirable to the opposite sex.

Plus, their sex lives **DRASTICALLY** improved (if you know what I mean).

This led to the boom of **TRT (Testosterone Replacement Therapy)**.

In this scenario doctors were administering synthetic testosterone shots instead of some guy in the back of a locker room.

And now it is an absolutely booming business, growing rapidly all over the United States.

But, it still had two major drawbacks...

Synthetic testosterone has bad side effects (even when given from a doctor) and its ridiculously expensive.

However, what if there was a way to eliminate the side effects and **EVEN** eliminate the cost?

Yes, **THAT** is exactly what you are about to read about.

Leading Botanists have discovered a way to extract pure human grade testosterone, from a plant or “phyto” source.

This non synthetic source is **MUCH** healthier for human consumption and it can be delivered with no prescription, at a much lower cost.

Plus, it has all of the same incredible benefits.

This is your game changer. This is a way to go back in time and feel like the “**younger man**” you have wanted to be again.

All I ask, is that you take 5 minutes and keep reading this page.

I will even reveal how I used it to change my life forever!

Sincerely,

Clint Winters

{Revealed} The Performance Secret Of The Elite...

And it Has Given Them an EDGE Over the Rest of Us... For Years.

Let's be honest, anyone at the top does things on a daily basis to **STAY** on top. This is why silicon valley has lead the way in "smart drug" research.

Everyone is seeking an edge in life or even an unfair advantage to stay ahead

There has **NEVER** been an edge more publicized than the legal usage of testosterone as a **daily performance enhancer**.

Testosterone Replacement Therapy (TRT) has become the **ULTIMATE** anti aging and performance enhancement solution for elite men over thirty.

This is why “**age management**” clinics are popping up in big cities all across the US servicing male clientele who want to stay younger and more powerful more much longer than nature normally allows.

They are catering to **Fortune 500 CEO's**, hedge fund managers, Hollywood agents and movie stars who want an **EDGE IN LIFE** and in their industries.

This has fueled executives who are able to work feverishly, mentally fresh, on a mere four hours of sleep and actors who are over 50, but have the ripped body of a twenty year old.

Yes, they work hard, but they **ALL** swear by the benefits of daily testosterone therapy.

Testosterone gives them that **extra 25% they need to remain on top** and keep working when other are tiring out.

TRT has given many men their vigor back in ways they never thought possible.

However, traditional TRT has three **MAJOR** drawbacks...

- **It Costs Over \$1,000 Per Month (Or More in some clinics)**
- **It is Synthetic and DOES have chemical side effects.**

● Once You Start, You Can't Stop

Imagine **ALL** of the above benefits without **RISK** and **HUGE COST**. This breakthrough is set to enhance men's lives all over the world.

Men, Imagine Being The Best Version of YOU...

Imagine waking up and looking and **FEELING** decades younger.

As you walk towards the bathroom and catch a glimpse in the mirror you see a physique that looks ten years younger than your biological age.

Your muscle tone is back, with strength to match, and the top layer of fat is finally disappearing.

This is **EXACTLY** why men are supplementing with testosterone, to **GET BACK** and **KEEP** their edge in life.

Imagine how confident you would be as walk through life as an **OPTIMIZED** version of you.

The benefit extends **FAR** past your muscles... all tissues will work better.

Men all across the world have reported benefits in energy, mood and **DAILY** cognition.

This is why top level executives and world leaders will not miss a day of TRT, this is **THEIR** edge on the world.

Even if you are not a top level executive or athlete, you have your **OWN** life you want to dominate and **ALL** of us want to be the best, healthiest version of ourselves.

With normalized testosterone every single word of this is **NOW** possible, without a prescription and without the cost of thousands per month.

Keep Reading, this YOUR chance to live an enhanced life.

Pure Male Enhancement With **ZERO** Side Effects

Again, what you are reading about is pure, bonafide testosterone that is naturally extracted from a plant source.

This is **NOT** a way to boost your natural testosterone levels...

THIS is adding **EXTRA** testosterone to your body giving it all of the incredible associated benefits.

When **EXTRA** testosterone hits your blood stream, several biological functions get **MUCH** sharper.

- Your body naturally drops fat and adds lean muscle

- Your strengthened heart pumps more blood throughout the body
- Your bones get stronger and more rigid
- Your brain function increases with better memory and reasoning
- Your Libido FLYS through the roof (your partner will love it)
- Your mood and confidence skyrockets as you feel like a “new man”

Remember, testosterone is so powerful, it is banned in professional sports because it really and truly gives a distinct human advantage.

This is a way for you to get stronger, leaner, healthier and more confident than nature actually intended.

These benefits are why the most powerful men in the world use testosterone as their “**secret competitive weapon**”

Enhanced on testosterone, they are able to outwork and outperform those half their age.

AND you could do the exact same thing.

And I have **EVEN** better news!

Plant based testosterone is **NOT** synthetic and does not have a single associated side effect.

Plus, every single nanogram will make it to your **“FREE”** testosterone stores.

Free testosterone is what enhances the male body.

This is the **only 100% Safe and legal way** to enhance your body with **“male optimizing”**, pure testosterone.

MIT Discovers Plant Based Testosterone...

The Medical Science Team below is considered the **“DREAM TEAM”** when it comes to natural male enhancement.

This team includes some of the **brightest and most respected** medical minds in our history.

Overall, this teams makes up hundreds of years of medical knowledge as well hundreds of biomedical patents and research papers.

This research team was made famous when they discovered and patented LJ100, the strongest natural testosterone booster ever developed.

Their science has helped safely and naturally enhance men for decades.

However, their discovery of naturally occurring testosterone is easily their **BIGGEST** and **MOST CONTROVERSIAL** Discovery to date.

Their Research Lead to the Discovery of Plant Based Testosterone...

What started off as a hypothesis, is now one of the **greatest male health discoveries** of our lifetime. This incredible team was able to identify a source of naturally occurring testosterone.

Past that, this form of testosterone was actually "**human compatible**" and very potent.

They did not know it then, but they effectively discovered the **CURE TO DECLINING TESTOSTERONE LEVELS** for aging men all over the world.

Instead of trying to **BOOST** natural production, this discovery could be used to **ADD TESTOSTERONE** directly to the depleted **FREE STORES**.

This would allow men of **ANY** age to restore their declining testosterone levels in the matter of days.

Here is Exactly What They Found...

After a yearlong project, sponsored by the Department of Biology, **human grade testosterone was fully extracted from naturally occurring pine pollen.**

This marked the first time in human history natural testosterone was extracted from a plant source, changing medical history forever.

This scientific journey first began when scientists identified that pine pollen (**the sex compound or sperm of pine trees, found in the pine cone**) contained hormones that were biologically identical to human hormones.

Most importantly pine pollen contains **pure testosterone and prohormone DHEA**.

And the discovery kept getting more significant as time went on...

After further research, scientists found that just a single gram of pine pollen contains nearly 80 nanograms of non binding **“free testosterone”**.

Free testosterone is a form of testosterone that will not be bound by other parts of the male body, allowing it to be fully available for enhancement.

Coincidentally, this is the type to powers body composition, energy and sexual function to name a few.

It is also the type that drastically declines with age.

This is scientifically incredible... here is what it means for you...

A single dose of phyto testosterone is nearly 1/6 of what a you need to maintain normal testosterone levels (**A normal level is 500 nanograms**).

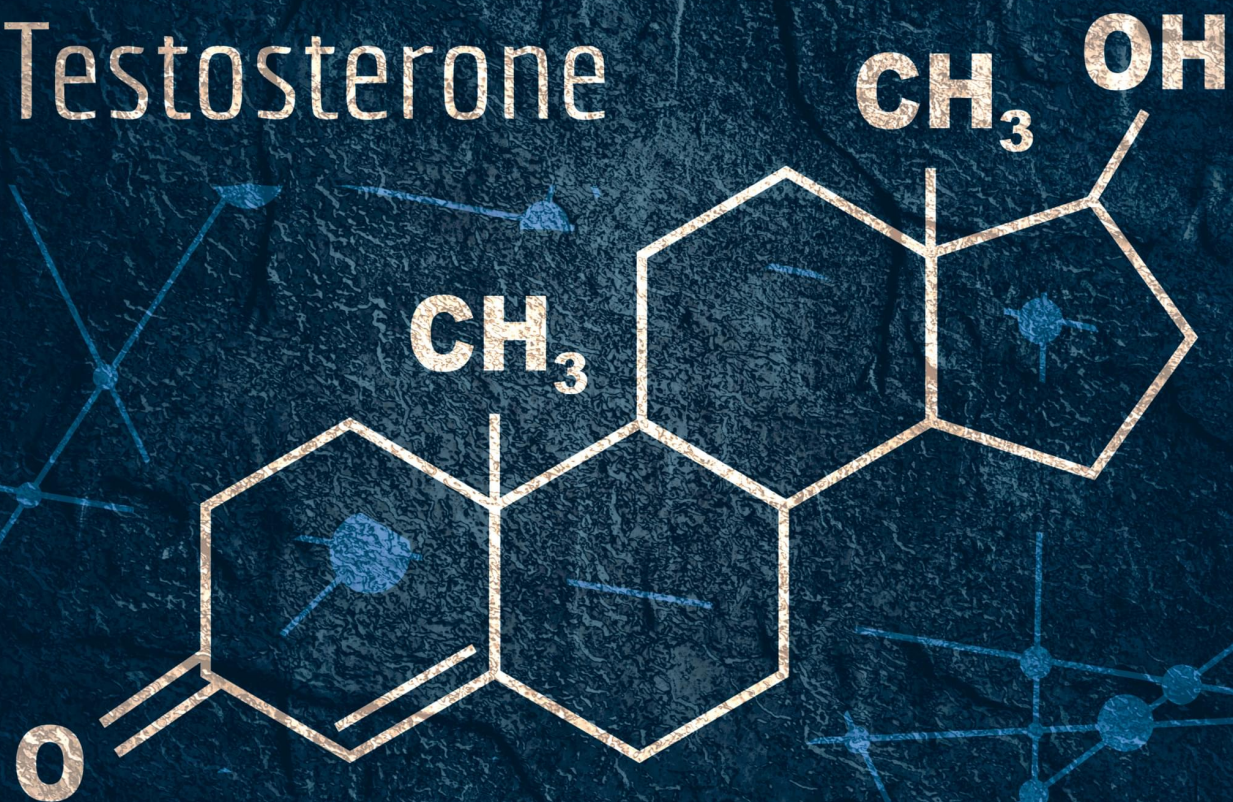

Even if you started with 0 free testosterone count, your levels would be fully normalized after just 6 days of use.

In just over 10 days you would reach the **TOP** of the male spectrum of nearly **900 nanograms**.

Anything above 900 and they would not let you compete in the Olympic games.

Each day after that you would be adding to your overall **“male advantage”** as you walked around with enhanced levels of testosterone.

Testosterone

And here is the best part, your body will use what it needs and discard the rest since it is naturally occurring and not synthetic.

And finally, there has not been a single side effect noted after years of internal human research.

You will literally get every single benefit of synthetic testosterone use without any of terrible side effects associated with the use of muscle building compounds.

Plant based testosterone is the **ONLY** clinically proven and legal way for you to safely boost your testosterone levels and **FEEL** younger and more confident than you have in years.

This Discovery Has Been Dubbed "Phyto Testosterone"

Phyto Testosterone Vs Synthetic Testosterone

Plant based testosterone (**naturally extracted**) and synthetic testosterone share similarities and STARK differences.

Here is how they are similar...

- Both types of testosterone work inside the male biology. They will both work to boost lean muscle mass, burn body fat and accelerate focus and drive.
- They both have profound effects on the male sexual system including increased libido and erection quality.
- Phyto Testosterone is EVERY BIT as Potent as Synthetic Testosterone

However, here is how they are drastically different

- Chemically Phyto Testosterone is structured as “non-binding” which means that it will not bind to available proteins.
- When Phyto Testosterone enters your body, it enters as FREE TESTOSTERONE, boosting these all-important stores.

For example, if you were to consume 80 NG of Phyto Testosterone, all 80 NG would make it to your FREE STORES, dramatically boosting your levels.

- Synthetic, mad made testosterone chemically binds to proteins. This is the reason that you have to take a huge amount to make a small amount of difference.

For Example, you would have to take 97 to 99% more synthetic testosterone to boost your free stores to the SAME LEVEL as plant based phyto testosterone.

Here is why science has determined Phyto Testosterone is Safer and More Effective

Biologically, plant-based substances absorb into the body at **FAR HIGHER** levels than synthetics. This is the sole reason athletes are switching to plant-based proteins by the droves.

Additionally, unlike synthetic testosterone, phyto testosterone does not have any associated risks or side effects.

Due to its structure and bioavailability Phyto Testosterone absorbs directly into your **FREE STORES** at a rate of 100%.

This means that you **ONLY** need to take enough to maximize your **FREE TESTOSTERONE** stores and not a nanogram more.

Since you do not have to **OVER CONSUME**, Phyto testosterone consumption does not affect your natural production like synthetic testosterone.

As you know the use of synthetic testosterone shuts down your natural production due to the excessive amount you have to take to affect your **FREE STORES**.

This makes coming off synthetic testosterone nearly impossible as your natural production may be hurt for the rest of your life.

With phyto testosterone you **DO NOT** have that worry.

Your body will be producing testosterone naturally as you are refilling your **FREE TESTOSTERONE** stores.

Lastly, we **ALL** have a natural “top range” testosterone level.

PLANT-BASED

Once you reach your top end natural capacity, phyto testosterone is naturally discarded, ensuring you never exceed your prime natural levels.

Your body naturally does this without a SINGLE side effect.

In summary, plant-based testosterone will give you **EVERY** male performance benefit of synthetic testosterone without the **TERRIBLE** potential side effects.

*In a head to head comparison, phyto testosterone is the **CLEAR** winner.*

THE SPARTAN SECRET REVEALED

Unknown to them at the time the Spartans had discovered a major testosterone advantage before anyone else...

What was this advantage?

Their civilization used pine trees for nutrition, eating the flavor filled pine pollen as a part of their daily diet.

What was just food to them was the key to their recovery, vitality, strength, and overall male virility.

What we know **NOW** is these warriors were eating **raw plant based testosterone**.

They were “**performance enhanced**” before we knew “performance enhancement existed.

Other cultures have also adopted this practice such as the Chinese and it is paying dividends.

It was found that Chinese men have an average of 20% more testosterone in their bodies.

This leads to increased fertility, prolonged lifespans, as well as incredible physical and sexual performance.

Remember, the Chinese dominate in strength sports with some of the strongest men, pound for pound, in the world.

In minutes a day, you could be on your way to revitalizing your hormones and reach optimal testosterone levels.

Do NOT Wait Another Day to Take Back Your Manhood

Testosterone is What Makes YOU a Man...

To a man, there is **NO** more vital of a hormone than testosterone.

It is incredibly important to overall male development and anti-aging.

It has a hand in every biological process that is important to a man. **However, It is primarily responsible for the male sexual characteristics.**

It is also responsible for keeping men looking and feeling young.

If you have enough testosterone , these functions thrive, if you don't, they suffer – it is that simple.

- ☑ Sex Function and Libido
- ☑ Muscle Growth and Strength
- ☑ Fat Distribution

☑ Red Blood Cell Production

☑ Hair Growth

Now, we have gone over how you feel when you have copious amounts of testosterone.

You walk around stronger and leaner, with a new sense of confidence and primal desire for the opposite sex.

For many men, it has been years or decades since they have felt like this.

But, what does life look like, without normal testosterone levels?

If you are reading this, you may be in this spot right now.

In fact most men are as our average testosterone levels are lower than they have been in decades. As each year passes, US men are suffering more and more.

To put it bluntly, low testosterone is a nightmare. It normally starts with a lower sex drive, which progresses into full blown erectile dysfunction.

These symptoms develop into loss of hair, muscle, strength and increased fat storage.

If this lasts for years men will face serious disease, osteoporosis, terrible mood swings, testicular shrinkage and dramatically reduced daily energy.

Low testosterone is an emasculating and down right dangerous.

And the news is getting worse. Every male over 30 has declining testosterone levels, there is now way to get around it.

Sadly, After 30, Your Testosterone Levels Drastically Decline

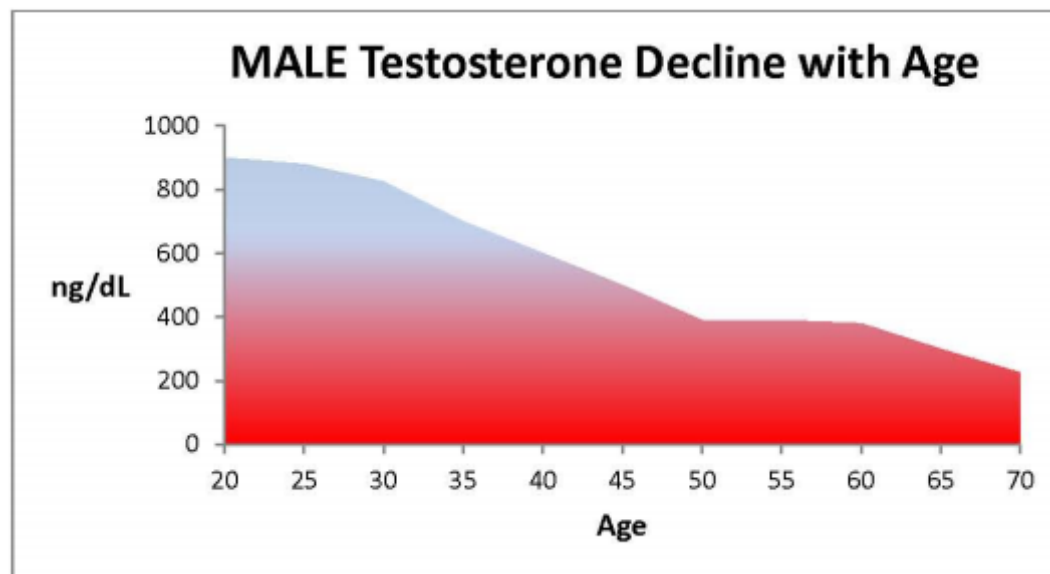

This is NOT good news if you are an aging adult male

Declining testosterone is inevitable, it will happen to 100% of us as we age.

In fact, we begin losing **1% to 3% a year** after the age of 30.

Decline happens **EVEN FASTER** if you live an unhealthy life style.

Once you hit 40, decline starts to become a problem that you can really feel.

At 50, it really hits home as you feel like less of a man.

After 50, well, the effects can be downright debilitating as you have less and less of this crucial hormone.

But why? It comes down to the potency of testosterone and the intelligence of your body.

You see when you are young your body knows you need to work and produce children, so it takes your testosterone and fuels your muscle and sex function.

This is what is called your “free testosterone”.

However, as you age, your body knows these two functions are not as important as they once were (to your biology) and it has better use for your male enhancing properties.

Even if you are still very much physical and sexually active, your body takes the free testosterone stores you once had and binds them to other functions that need assistance.

This leaves your physical shape suffering and your sexual function in the dumps.

This reality is coming for all men, it is part of our nature, much like women’s menopause.

But, here is the good news!

If you can keep your “free testosterone” levels full, these issues will never affect you.

A safe and natural way to keep your testosterone high means a life of confidence and enhanced sexual function.

That is **EXACTLY** what you are reading about now!

With Phyto Testosterone, Your “Free Testosterone” Will Skyrocket

Phyto Testosterone is the perfect solution for boosting your aging and declining free testosterone stores.

Every single day you will be adding 80 nanograms of PURE “free” unbound testosterone to your body.

This is the testosterone that boosts the functions that you really care about...

- ☑ Sexual Function
- ☑ Muscle Tone
- ☑ Fat Loss
- ☑ Mood and Energy

Imagine every day, these functions getting better and better as a fresh supply of testosterone courses through your veins.

And this solution can work very quickly.

The average healthy male in his 20s and 30s had roughly 700 nanograms of “free testosterone” in his body.

Regardless of your age or current **"count"** you can normalize your testosterone levels in just days.

Within 7 days you could have the FREE TESTOSTERONE level of a professional athlete.

After 10 days you may have too much testosterone to compete in professional sports.

And then as you keep supplementing, your body will use what it needs to meet your prime allowance and discard the rest.

That means you will hold the highest level GOD intended you to have and not use and drop more.

Yes, it is **NOW** possible to have optimized testosterone levels every single day, for the rest of your life.

What does a life of optimized testosterone look like? Well, it is YOU, just drastically enhanced.

Here are Just Some of the Benefits...

**You Will Feel YOUNG and
STRONG Once Again**

You will Be Shocked About How Much Testosterone Benefits the Male Body...

There are not two ways about it, having enhanced levels of testosterone will make you feel like a million bucks, and give you an edge on life.

Again, this is why the world's elite use it daily to look younger and perform better, at the very tip top of their game.

This is not just word service, testosterone plays a powerful part in how you feel as a man.

Here is a scientific look of how you will feel when your “free testosterone” is back to normal and healthy levels... *just like when you were younger*

-  **Your body will begin to add lean muscle and shed unwanted body fat.** Soon, a younger and stronger physique will reveal itself to the world. Increased testosterone directly causes an increase in muscle size and strength. Remember, this powerful benefit is why it is banned in all professional sports, worldwide
-  **Your sex drive and function will skyrocket.** That’s right, testosterone production is tied directly to your sexual performance as a man. You will notice your arousal increase, much like when you were younger. You will want sexual activity more often and for longer durations. Finally, with a stronger body and healthy hormone level you will “perform” better than you have in years.
-  **Your aging heart will strengthen.** This is a very little-known fact, but healthy testosterone levels lead to a much healthier heart. It does this by boosting “heart necessary” red blood cell counts. In fact, an 83,000 person study found that men with normal testosterone levels were 24% less likely to have a heart attack.
-  **You will have stronger bones.** When you normalize your testosterone levels, you will have stronger and more dense bones. Testosterone allows your

bones to remain very mineral dense, supercharging their strength and rigidity.

Your brain will fire faster than ever. Normal testosterone has a direct link to brain health and even a decrease in Alzheimer's disease. Plus, in numerous clinical trials men with normal levels had increased critical thinking ability, thought processing, and special memory. This is why testosterone has become a "secret weapon" for top level executives around the world.

You will feel better than ever. When you normalize your testosterone, your mood and energy will skyrocket. You will feel better than you have in years. In fact, men with lower levels often suffer from depression, fatigue and irritability.

When you read all of these benefits, you truly understand the power of normal testosterone levels. Once this is achieved you can unlock a new, improved and enhanced version of yourself.

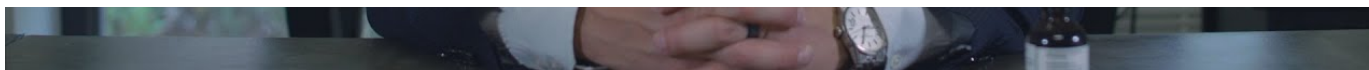

Just imagine walking around **stronger, leaner, and more muscular**. All while feeling happy and sharp in your business endeavors. All while knowing your heart and bones and strong and you can satisfy your partner like you haven't in years.

THIS is the life of a man with normalized testosterone. **This will be your fountain of youth.**

Here is How it Changed My Life...

My Personal Journey from Fat, Unmotivated and Unhealthy to Strong and Lean For Life...

Hi, I'm Clint Winters and the subject of this page is **VERY** personal to me. I have experienced exactly what it feels like to be short on energy and motivation.

I understand what it feels like to watch muscle tone go away, **ONLY** be replaced by ugly fat.

I understand declining into poor self-confidence and depression.

But, this story, MY story, has a happy ending... and I am about to share it in detail!

This is how I **RESTORED** my declining testosterone and **FULLY RESTORED** my male health.

Now, Here is the Embarrassing Part...

Clint Winters - Over 315 Pounds

I have to make a big confession. Even though I am known now as a health expert, early on in my life I nearly ruined my health.

In fact, I was the opposite of the picture of health and the repercussions hit me like a train.

There I was, mid twenties and had gained nearly 100 pounds of pure body fat. Honestly, I totally lost track of my health and responsibility.

Back then I was in a new business and I traded out evening workouts for long nights at the office.

I traded my protein shakes for fast food.... And day by day it got worse. **Pound after pound it piled on, but I barely noticed.**

I didn't realize until years after that I never looked in the mirror during those dark days. It was just and endless cycle of bad choices.

Week by week, clothes stopped fitting... and I was feeling worse and worse.

And then the dam finally broke, I started to have chest pains. These chest pains finally forced me to see a doctor and I was terrified.

I knew the results were not going to be good. I did not feel healthy and I surely did not look healthy.

I walked into the doctor's office, shaking and nothing would prepare me for what I heard next.

I had effectively ruined my body, every health marker was **WAY OFF.**

All of my numbers were life ending high including my pulse, blood pressure, cholesterol and blood sugar.

My doctor was actually worried about my future, unsure how long I could sustain at these elevated levels.

In many ways, I was on my death bed and I had to do something.

But my body was fighting me. I wanted to make a change but I had **ZERO** energy and motivation.

I felt tired all day...

And overall, I felt like my body no longer worked the same.

For thirty days I tried hard. I tried to get on a better diet and workout. I made some progress, but not enough.

Finally, I gave in and called my Doctor for help.

I can tell you right now, I was not prepared for what I was about to learn. I figured he was going to give me some ultra-potent vitamins

Or maybe recommend some energy boosting regimen.

He did none of these things. After I explained how I was feeling he ordered a testosterone test and I full complied.

As it turns out, that test changed my life forever.

My Doctor had a hypothesis and he was 100% right.

I had health induced testosterone decline.

I was so unhealthy I had ruined my natural levels.

My testosterone levels were VERY LOW. In fact, I had the levels of an 80-year-old man and they would only get worse.

This is why I could barely get out of bed. This was also why my body wasn't changing as fast as I wanted it to.

And if I am being totally honest, this is why I hadn't had sexual desire in almost a year.

It is really hard to say, but I barely felt like a man.

In many ways my body was fighting itself and I had to find a way to naturally increase my testosterone production.

For me this was life and death.

Now, based on my levels my doctor immediately suggested (testosterone replacement therapy) TRT, but that totally terrified me.

This is essentially weekly or monthly testosterone shots.

I had read up on this before and the side effects can be rather harsh. Plus, once you begin the shots, it is very hard to stop.

In fact, the shots will drive your natural production down to nearly nothing, so if i had to stop for any reason I would be totally screwed.

And past of that was the cost. I had a new business and young family so \$1,000 a month or so was WAY out of my price range.

I thanked my doctor for this new found revelation and went on the hunt for a solution.

Now, please realize, this next part took months but I am not going to waste your time.

As you know, if you google “natural testosterone booster” you get all kinds of entries and companies hocking products.

Most of which are very flashy, but at the core they had no real science.

Again, after several months and hundreds (if not thousands) of dollars wasted I had no improvement.

In fact, I got rechecked by my doctor and my levels had improved a small amount, but I was far from out of the woods.

I needed to find a solution or I was destined to a life of testosterone shots which I knew I could barely afford.

And that final push is what drove me to dig deeper and find the solution that would ultimately change my life.

After a google deep dive, that took hours I finally started finding articles regarding foreign based testosterone therapies.

I focused on Eastern Countries such as China and Japan after I read that their tested testosterone levels were on average, 16% higher than US males.

In fact, many believe that is the reason China and Japan dominate in pure strength sports such as Olympic weightlifting.

Pound for pound, Chinese men are the strongest in the world.

And then, finally, I found what **THEY** did and it blew my mind.

These men were not taking testosterone boosters or **EVEN** testosterone shots they were literally eating testosterone with almost every meal.

Their secret super food.... *Pine Pollen*

You see pine pollen is the sexual matter of a pine tree and historically has had powerful male enhancing qualities.

You see, centuries ago they noticed that using pine pollen in their foods boosted male vitality and from generation to generation, they kept using it.

Over the last one hundred years, Asian scientists realized this potent substance actually contained male androgens including pure testosterone.

So, when they eat pine pollen, they were physically digesting testosterone which had led to years of elevated levels.

The shocking information was well known throughout Asia, but no one was talking about it in the United States.

From that day forward I ordered a bag and started adding it to every single meal.

From the first sampling I felt like something was different. It's like I could feel the testosterone boost flowing through my veins.

My energy and drive sparked back to life first. I felt more focused than I had in years and I knew I had the assistance necessary to take on each and every day.

I was working better and my workouts were much harder. In fact, I looked forward to each and every day in the gym.

I wanted to see how much harder I could push.

Over time, this effort led to results. I started getting leaner and stronger and my confidence came rushing back.

I was physically transforming.

I looked healthier and younger and as I made progress all I wanted was more progress. I was eating better because I was motivated and then the results really poured on.

Over the span of months, my entire life changed. I was in the best shape of my life and I was barely recognizable.

My confidence was finally back, in fact, it was at an all time high.

And my medical reading, well, my doctor was totally shocked. Within the span of a year I went from has the testosterone levels of an 80 year old, to a 20 year old.

Yes, my testosterone reading went from 287 to nearly 900.

In fact, had it gone any higher I might actually fail an athletic performance enhancement test.

Clint Winters - 2015

All of my health indicators stabilized and I was once again totally healthy.

I was able to accomplish all of this without a single pill or shot.

Years later my Doctor admitted he had never seen a turn around like that!

And here is the best part, my levels just **KEEP** getting better.

This Testosterone Boosting Process Started Nearly 10 Years Ago and I Am Now Healthier, Leaner and Stronger Than Ever.

Clint Winters - 2018

I am almost 40 and many believe I have the physique of a 20 year old.

And past all of that, this radical transformation has lead me to a career as a health author, inventor and even on screen entertainer.

None of that would have been possible had I still been overweight.

I can say, with 100% certainty that pine pollen changed my life **FOREVER** and I won't go a day without it.

Oh.. I almost forgot... my sex life. Well, let's just say all of **THOSE** attributes came rushing back as well.

This personal innovation is what inspired Phyto Test. What you are reading about now is 10 times as potent as anything in this story.

This REALLY and TRULY the Future of Male Enhancement.

**The Benefits Are Backed By
Rigorous Clinical Studies**

Testosterone Enhances Libido and Sexual Function in Aging Men

2009 – VA Medical Center, St. Louis Missouri

The prevalence of erectile dysfunction increases markedly with age. Free testosterone levels were significantly correlated with erectile and orgasmic function.

Men with greater sexual activity had higher bio-T levels than men with a lower frequency and androgen deficiency may contribute to the age-related decline in male sexuality; correspondingly low levels of bio T were associated with low sexual activity.

Adequate testosterone treatment can restore venous leakage in the corpus cavernosum which is a frequent etiological factor in ED in elderly men.

Overviews of randomized controlled clinical trials indicate benefit of testosterone therapy on sexual health-related outcomes.

Long-term follow-up of testosterone replacement in hypogonadal males and a control group indicates that self-assessment of libido was significantly higher in the testosterone-treated group.

Testosterone replacement has also been shown to enhance libido and the frequency of sexual acts and sleep-related erections. Participants also reported improvement of sexual function.

On the other hand, Two placebo-controlled trials reported on the effect of testosterone on overall sexual satisfaction, yielding impressive results.

Testosterone replacement therapy, in particular, has been linked to positive effects on fatigue, mood, and sexual function, as well as significant increases in sexual activity.

Testosterone Promotes Less Fat, More Muscle and Strength

2009 – VA Medical Center, St. Louis Missouri

Testosterone therapy is effective in reversing age-dependent body composition changes and associated morbidity.

Testosterone administration improves body composition decrease of fat mass, increase of lean body mass.

Testosterone therapy was associated with a greater improvement in grip strength than placebo.

Recent cross-sectional studies showed that in aging men there are also positive correlations between testosterone and muscle strength parameters of upper and lower extremities, as measured by leg extensor strength and isometric hand grip strength.

Moreover, testosterone was positively associated with functional parameters, including the doors test as well as “get up and go” test, and 5-chair sit/stand test.

Some patients reported an increase in lean body mass

Testosterone Boosts Mood and Confidence

2009 – VA Medical Center, St. Louis Missouri

Testosterone therapy was associated with improved mood and well-being, and reduced fatigue and irritability.

Randomized controlled trials of testosterone therapy in men without or with underlying chronic illness using a variety of testosterone formulations report equivocal improvements in quality of life measures, including general well-being and fatigue.

For patients with major depression and/or dysthymia, improvement was equal to that achieved with standard antidepressants with significant improvement in depression inventory score.

Testosterone Boosts Cognitive Function and Memory

2009 – VA Medical Center, St. Louis Missouri

There is good evidence for a strong correlation between T levels and cognitive performance such as spatial abilities or mathematical reasoning.

Higher bioavailable and free testosterone concentrations have each been associated with better performance in specific aspects of memory and cognitive function, with optimal processing capacity found in men ranging from 35 to 90 years of age.

However, in men with Alzheimer's disease testosterone treatment appeared to improve quality of life without impacting on measures of cognition.

Therefore, although the evidence from observational studies is not uniform, lower free testosterone appears to be associated with poorer outcomes on measures of cognitive function, particularly in older men.

Testosterone Boosts Heart Health and Reduces Associated Risks

2007 – Centre of Clinical and Basic Research, Rome Italy

In this study 129 male patients (ages 43 – 72) were evaluated due to their symptoms indicated Coronary artery disease.

Across the board, these patients had significantly lower levels of testosterone than controls.

An inverse relationship between the degree of CAD and plasma testosterone levels was found.

In conclusion, patients with CAD have lower testosterone and estradiol levels than healthy controls.

These changes are inversely correlated to the degree of CAD, suggesting that low plasma testosterone may be involved with the increased risk of CAD in men.

**Men, Finally, Natural
Testosterone is YOUR Edge...**

Plant based testosterone will allow you to live the best and strongest version of yourself.

If we look back at all aspects of human history, one thing is for sure, as humans we are always seeking an edge.

Whether it is in business or even at war, we seek to find that **ONE THING** that will set us apart and allow us to win.

Think about it, as men we have testosterone to build muscle and strength so we can work and defend.

Our testosterone also drives our attraction to our sexual partners and allows us to procreate.

Testosterone is the driving force of what makes us a MAN, and when that begins to dwindle, so does our confidence and resolve.

IT IS TIME TO RESTORE YOUR CONFIDENCE

And it is time for you to feel better than you have in years.

Boosted Free Testosterone In Less Than 15 Minutes...

You can have optimized testosterone levels and all you need is 60 seconds per day.

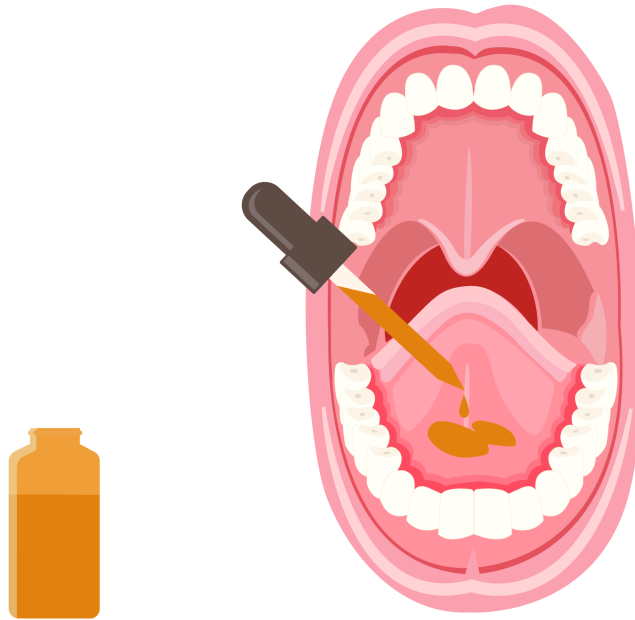

What comes to mind when you hear about testosterone treatments?

Most think of painful injections, ineffective gels, and other difficult delivery methods.

Phyto Test 80 sublingual natural testosterone is very easy to use.

It is placed under your tongue to be absorbed through your mucus membrane and directly into your bloodstream.

Your free testosterone stores will be boosted within 15 minutes of consumption.

This is one of the quickest delivery methods for your body.

You simply hold this sublingual formula under your tongue for 60 seconds, allowing the natural hormones to absorb.

After 60 seconds you can simply swallow the remaining liquid.

You may feel a slight tingling sensation which is caused by the ethyl base and a good sign that means it's being absorbed properly.

If the taste is too much you can dilute it in water or your favorite beverage.

Phyto Test 80 is the safest, quickest, and most effective all-natural testosterone solution in the world.

We Sourced the Most Potent Testosterone Filled Pine Pollen on Earth

Firstly, it should be noted that ALL pine pollen is NOT created equal. To date, there are over 175 species of pine trees in the world.

Each species has nutritional variances that affect the nutritional benefit of the produced pine pollen.

Some species have FAR less testosterone production.

This is why we needed to ensure we found the most potent pine pollen in the world.

After two years of independent research, there is an undisputed champion when it comes to pine pollen testosterone concentration.

This winner is the rare but powerful Pinus Massoniana

It is native to Taiwan and has been clinically validated as the most nutritionally potent source of pine pollen in the world.

It has a higher testosterone ratio than any pine pollen on medical record. It contains a full 80 nanograms per gram of testosterone.

Scientists believe the climate of Taiwan allows the Pinus Massoniana to nutritionally thrive, creating an environment that has created the most potent pine pollen in the world.

Pinus Massoniana Pine Pollen Contains:

- Pure Testosterone
- Androstenedione
- DHEA
- IGF 1

It should also be noted that Natural Pine Pollen Powder is a Complete Protein.

Our Cell Wall Breaking Process Ensures Maximum Extractability

At Pharm Origins, we developed a process that increases testosterone accessibility by nearly 75%.

Naturally, Pine Pollen has a thick cell wall, protecting it when it makes its arduous journey through the air from the pine tree cone buds.

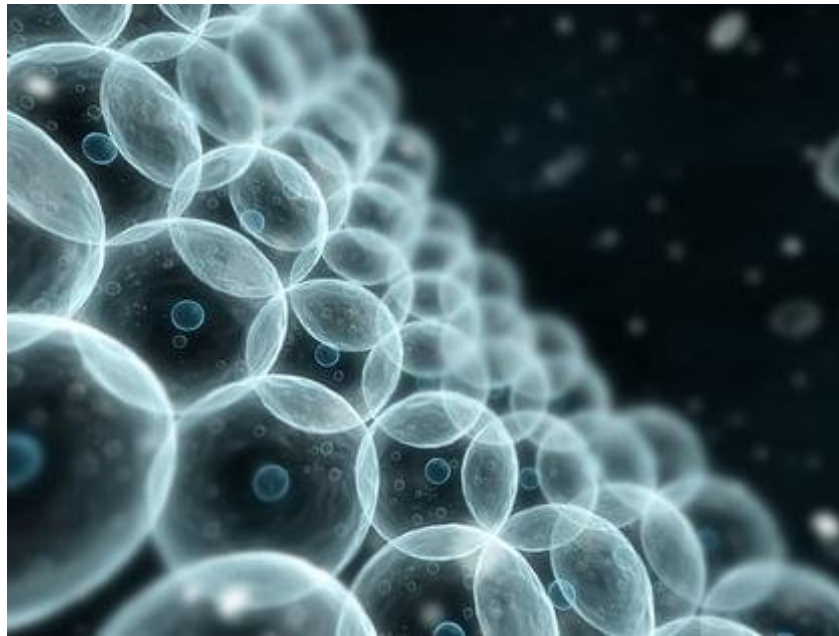

Unfortunately, if left unpenetrated, this cell wall can preserve the testosterone, protecting it from any sort of extraction process.

In fact, this cell wall is even strong enough to fend off the human digestive system.

However, the testosterone can be freed by using a gentle cell wall cracking technique.

After scientific analysis we have chosen to use a High Speed Airflow solution based upon copious scientific research.

This proven phyto technology is able to gently crack the cell wall, allowing for direct testosterone extraction.

It does all of this without compromising the integrity of the enclosed nutrients and hormones.

In fact, we have yielded a 99% testosterone extraction rate from cell cracked pine pollen.

This ensures we can naturally extract every possible nanogram of testosterone from this very potent raw powdered source.

We Extracted Pure Testosterone Using our Patented Ethyl Extraction

Ethyl Extraction is a Pharm Origins exclusive process that allows our production team to extract “hard to extract” active ingredients from raw compounds such as leaves and roots.

This process was developed by our medical scientists in order to gain access to the purest and most potent active ingredients in the world.

One great example of this is natural testosterone extraction from raw pine pollen.

Testosterone, a hormone, is chemically fragile so ethyl extraction is the only way scientifically known to extract this volatile active ingredient.

Upon extraction, the remaining testosterone is 10 times more potent than in its raw powdered state.

After extraction, This powerful compound is suspended in a sublingual formula allowing it easy passage through the mucus membrane directly entering the bloodstream.

This method naturally and safely delivers active ingredients throughout the body quickly.

Phyto Test 80 has an absorption rate of 99% so you experience effects almost instantly.

Your free testosterone levels will rise within 15 minutes of consumption.

This creates a safe, effective, and pain-free alternative to synthetic hormone shots with harsh side effects and extremely expensive testosterone replacement therapy.

We Enhanced The Flavor with Testosterone Boosting Pomegranate

Phyto Test 80 provides incredible results without tasting terrible.

Our all-natural pomegranate flavoring helps to mask the potent taste of this ethyl-based formula and reduces the burning sensation you may feel while taking it.

Great taste shouldn't come with a price.

We don't believe in artificial flavorings, preservatives or any chemical additives of any kind.

Every single flavor we use are all organic and 100% Naturally Extracted.

Pomegranate not only improves the overall taste but also has its own testosterone boosting ability.

The results of a 2012 health study showed that drinking pomegranate juice for only 14 days led to an average increase of testosterone up to 24%.

Participants also all experienced improvements in mood and blood pressure.

These benefits, combined with the power of natural pine pollen, make Phyto Test 80 the most powerful natural testosterone solution on the market.

ATLANTA, July 5, 2019 /PRNewswire-PRWeb/ -- After extensive research and development, Pharm Origins has announced the successful extraction of natural testosterone originating from raw pine pollen.

Testosterone supplementation, a key male hormone, is often used as a potent but controversial regimen against male aging. Biologically, plant-based testosterone provides the same human benefit with

The creations Phyto Test 80 and Pharm Origins has made national news all around the United States.

For the first time in history, naturally extracted testosterone is available, publicly, without a prescription.

This was made possible by our patented Ethyl Extraction process.

Our Patented Ethyl Extraction system is used in the process of extracting this plant-based testosterone from cell wall cracked pine pollen.

Now men of all ages and income levels have the chance to live with naturally optimized free testosterone stores.

This is a life changing innovation for men around the country.

EACH BOTTLE OF Phyto Test 80 IS HANDMADE IN ATLANTA, GEORGIA

Pharm Origins is proudly American, located in Atlanta, GA.

We THRIVE by doing things differently!

Every aspect of our formulating, manufacturing and logistics is handled under one single roof.

We begin hand-making your Phyto Test 80 as soon as you order it.

That's right, for the first time in history, your natural supplement is made fresh to order with no preservatives whatsoever.

Our production is supervised by GMP Certified employees who are trained in advanced food safety techniques.

Our small batch on-demand manufacturing ensures the highest purity and quality before shipment.

You never have to worry about receiving a bottle that has been sitting in a hot warehouse for two years with declining nutritional value.

Additionally, our hand bottling process allows us to totally eliminate cross contamination of any kind.

We do not use machines that are nearly impossible to fully clean.

As you now know, all our pine pollen raw ingredient harvests are internally sourced directly from our Taiwanese sources.

All our upcoming batches are potency validated and tested by our quality control team to verify the source before it is ever used in any product.

Our patented Ethyl Extraction process is performed entirely in-house to ensure maximum potency.

This ensures we adhere to our internally strict standards of quality.

You can feel confident in knowing that your bottle of Phyto Test 80 will be handcrafted to perfection by our well-qualified team.

Hi There I Received My First Bottle Of CONOLIDINE1 1,000 mg Today, I Have Been On Heavy Doses Of Morphine An Norco For Manv Years Due To

But Here is The **Bad News...**

Our Small Batch, On Demand manufacturing protocol ensures the freshest and most powerful formulas in the world.

However, there is a downside.

Phyto Test 80 is in extremely high demand and we cannot guarantee it will not sell out for weeks at a time.

Remember, our pine pollen harvests are sourced directly from Taiwan and we are at the mercy of the raw ingredient availability.

Additionally, we manufacture Phyto Test 80 in small batches under the highest possible quality standards which means it can be very challenging for us to keep up with massive amounts of demand.

Our natural testosterone is extracted using our advanced and patented Ethyl Extraction method, pioneered by some of the world's great scientists.

The highly technical molecular method can only be done manually, under intense scientific scrutiny.

We are not willing to sacrifice quality for quantity.

Once we sell out, Phyto Test 80 could be out of stock for weeks before you're able to purchase it again.

With this in mind, you may want to reserve your unit while it is in stock before you miss out on the opportunity to naturally restore your testosterone levels and regain your vitality.

There are many Testosterone products, as you have seen, that make huge promises. Well, I can say that Phyto Test definitely works and does what it says. My energy is doing great, my libido is thru the roof, I feel stronger in the gym and overall, I'm feeling happy and just very good about myself. Don't hesitate to get this, I can't suggest Phyto Test enough!

I have 3 years of history with testosterone boosters since I turned 40 and my libido hasn't been the same. Just lacking passion and drive in general so I've tried a lot of different pills and nothing consistently has worked like Phyto Test has. Definitely feel a boost in testosterone, my performance down there has improved so dramatically. I'd say it's been pretty good for my wife and I.

Roy Johnson  recommends **Pharm Origins**.

Some super high quality stuff right here!! I've used a lot of other T-boosters, but none can even compare to Phyto Test. After introducing this into my daily regimen, I felt it the next day, definitely an improvement in energy and libido. A must have for gents trying to increase muscle mass and cut some fat.

Jim Williams  recommends **Pharm Origins**.

Prescription TRT (Testosterone Replacement Therapy) Traditionally Cost \$1,000 Per Month Or More...

And Men Argue It is Worth EVERY PENNY... **What is a FULLY
Enhanced Life Worth To You?**

There is NO getting Around it, Prescription Testosterone Therapy is VERY EXPENSIVE and TIME CONSUMING.

First, you will have a EXPENSIVE consultation (which is normally not covered by any insurance).

And Then, if approved for treatment you will pay for monthly shots costing **WELL OVER \$1,000 per month.**

Plus, let's face it, shots are **PAINFUL** and **ONCE A MONTH** is a **LOT** of time at a Doctors office.

However, for men TRT is very effective and there are "**male aging**" doctors popping up all over the country.

These doctors are making millions **WHILE** Big Pharma is raking in millions on producing synthetic testosterone.

And once you start, you can't stop **OR** your natural testosterone levels will plummet and you will be worse off than **EVER.**

Imagine that, **\$1,000 per month for the REST OF YOUR LIFE.**

That does not sound pleasing to me...

This is **WHY** the word Phyto Test 80 is **SPREADING** across the country like wild fire.

Remember, Phyto Test 80 is **pure TESTOSTERONE**, just like the shots you would get every month.

The **ONLY** difference is it is **NOT** synthetic and you can easily absorb it easily via your mucous membranes.

The regular price for Phyto Test 80 is \$120 per 30 day supply – which is a complete bargain if you take into consideration:

1. Prescription Based Testosterone Therapy Costs \$1,000 a month OR MORE. Not to mention it includes weekly or monthly doctors visits and painful needles.

2. It has been proven in worldwide clinical trials as the first and **ONLY** natural form of testosterone every offered to US consumers.

3. Every single bottle is manufactured in the USA and goes through strict purification procedures, as well as being manufactured in an FDA registered facility under GMP Practices – the gold standard in manufacturing. **This is the purest testosterone extraction known in the world.**

Not to mention, Pharm Origins is the **SOLE** manufacturer.

4. **Phyto Test 80** is **VERY LIMITED** due to its excavation process, small batch manufacturing and patented purification process.

Phyto Test 80 is not easy to produce and the manufacturing process is 100% Manual due to the Ethyl Extraction.

You are Probably Wondering Why I Would Give you Such a Drastic Price Break?

This Huge Discount DOES Comes With a Big Favor Request...

Most companies hide behind their strategies like the Great Wizard of Oz, we like transparency.

So, Why are we offering such a huge discount of hundreds of dollars? Because we **KNOW** from past experience that our **EXCLUSIVE** customers are our greatest marketing tool.

We know this...

Once you experience the power of **Phyto Test 80** you will want to tell **EACH** and **EVERY** person you know!

I mean, what male doesn't want to be bigger, leaner and full of energy (sexual and otherwise).

In fact, it will be hard **NOT** sharing your new secret.

So, the more **INITIAL** customers we serve **NOW**, the **MORE** we will have in the future.

The **NEW** customers coming in (after our general release) won't have exclusive pricing access, thus, they will pay more for the same relief.

We do have advertise on fancy TV stations or invest in high dollar celebrities. We invest in you, by giving you incredible pricing and you will inadvertently do the marketing work for us.

This has worked since 2011 and it will CONTINUE to work until 3011.

Basically, **YOU** get the best possible pricing and **WE** get the exposure that helps us grow!

Sound Fair? Great, then you will love what you are about to read.

Just Do Me A Favor And Please Don't Place An Order If You're Not Going To Do Anything With The Product

Tens of thousands of our male clients are in need and they are counting on this potent form of natural testosterone to reverse years of decline.

Like I said, there's not enough bottles to go around for every single person reading this page.

So please **only order** if you're deadly serious about reversing your testosterone deficiency and living a fully **ENHANCED** life.

It wouldn't be fair to others if you order 3 or 6 more bottles and never do anything with the product.

During our clinical trials we had people calling and begging for a continued supply – they really really need this.

We have to ensure EVERY bottle counts until we can RAMP UP Production.

Warning: This is FIRST COME, FIRST SERVE

**Today, You Are Part Of An Exclusive
Group**

Not everybody has access to Phyto Test 80. Only Current Customers.

You have access because you are a customer or a subscriber with Insider's Health or our Pharm Origins Family of Brands!

When I say that the supplies are limited, I am not just saying that – supplies are truly limited.

We are working with a **FIXED** number of bottles, and they are **ALREADY** selling out quickly.

Remember, It is very difficult to excavate this special form of pine pollen because they reside in a very specific part of Taiwan which is very difficult to get to.

Plus, the natural supply is limited. Pollen is only released during a few weeks per year.

The extraction process that has been created, is effective, but it takes time and only allows for small batch quantities.

And, it may not be legal forever – The FDA hates natural solutions that compete with pharmaceuticals.

Overall, we have a **VERY LIMITED** initial supply

Don't worry, you can reserve your unit on the next page.

However, If the next page doesn't load – we have sadly sold out

Remember, **ALL** orders receive **FREE** Shipping and a fantastic **FREE GIFT**

Your package will arrive quick, safe and secure.

Like I said before, most people consider this their secret weapon for optimized testosterone levels and boosted MALE PERFORMANCE.

Don't let this advantage slip away.

Guarantee!**

I'm so confident that Phyto Test 80 will work for you that I'm willing to put my butt on the line whether no matter how many bottles you order.

Every single bottle is covered.

Here's what you have to do.

Just order the amount that you'd like below by Clicking any Button or blue link anywhere on this page.

Most customers choose at Least the **3 Bottle Option to Maximize Savings.**

You will come to the order page where you can choose your bottle quantity at your exclusive discount.

Be sure that you do not miss a single day of testosterone boosting supplementation...

Especially the first week so you give your FREE STORES a chance to elevate, enhancing the NEW YOU.

As you continue to use **Phyto Test 80**, you will notice some immediate changes...

1. If you don't notice a heightened sense of health, and more DRIVE and ENERGY, just simply send back the bottle following our return process and you will get an immediate refund.
2. Or if you simply have 2nd thoughts and you have decided it is not for you, send it back!
3. Or, if you do not like the label or the way it looks, send it back!

That's it and I'll immediately refund your purchase price.

No Questions asked!

And remember, we are not like most companies - we give you a full money back guarantee and you can return at any time for any reason within the time period allotted and you will get a no questions asked refund!

I don't believe you should pay for something if it doesn't work. Although I highly doubt that will happen.

As you can see, you truly have nothing to lose at all.

I've removed all the risk off your shoulders and placed them on mine.

Don't Miss Out if Phyto Test 80 Goes Out of Stock

Phyto Test 80 is First Come, First Serve.

Nothing that is worth anything, comes easy. This statement is 100% true when it comes to the manufacturing of **Phyto Test 80**.

Remember, **Phyto Test 80** can only be found in one place in the world – the laboratories of **Pharm Origins**.

This highly fragile substance is extracted using the advanced and patented Ethyl Extraction method, pioneered by some of the world's great scientists.

The highly technical molecular method can only be done manually, under intense scrutiny.

Due to the time spent and production difficulty, **Phyto Test 80** is **ONLY** produced in small batch quantities.

This means bottles are limited and they are **SELLING OUT** as you read this.

You will want to reserve a unit while it is **IN STOCK** because they sell out quickly. When out of stock, they could stay out of stock for weeks until the full public launch.

[>>> CLICK HERE Save 75% Off Phyto Test 80 <<<](#)

*** Remember, this has the potential of being outlawed by the FDA since it encroaches on Big Pharma products.**

However, We Are Fighting to Keep it Legal...

We are not lying down to this fight. We do NOT want to see this amazing natural testosterone banned or regulated.

If that happens, it will turn synthetic, become prescription only and YOU will lose affordable access due to the all mighty dollar of the Pharmaceutical companies – YES – this is that serious.

That is why, if you Want to Try this Amazing Natural Testosterone, You Need to Act Right Away!

Due To The Technology, This Product is Made in a "Limited Batch" process.

(If the Next Page doesn't load, they have already sold out)

Why would we limit? We really don't want it limited, but we need to limit it based on the production process.

The extraction phases takes weeks to complete, so each batch as a "short term limit". And this is all assuming raw pine pollen is seasonally available.

If this batch sells out, it could be gone for weeks, if not months.

Also Remember, the originating leaf, is very rare, and we can only excavate so much at a time. Supply is always going to be rare and limited.

Are You Ready To Experience The Testosterone Boosting Power of Phyto Test 80?

What do I mean by that?

I am so confident that **Phyto Test 80** is going to change life for you, I am going to do something that goes against the normal rules of business.

I will let you try it **TOTALLY RISK FREE** for 90 Days!

TRY PHYTO TEST 80 FOR ONLY \$29 EACH

>>> [CLICK HERE](#) Save 75% Off Phyto Test 80 <<<

You can try **Phyto Test 80** – for a FULL 90 Days and if, for any reason at all you are not thrilled with the results, simply return the bottles, even if they are empty and I will buy them back.

My intuition tells me that you really need this boost. Your testosterone has been declining for years. And, if you don't feel like a new man (which is highly unlikely), we want to hear from you immediately so we can refund your money.

So let's summarize one more time...

- Phyto Test 80 is 100% pure, naturally extracted testosterone.
- The average male sees normalized FREE TESTOSTERONE levels within 10 days of use.

**But you Must Remember – It MAY Be Outlawed and
Turned into a Drug (Your Time to Act is Now)**

ACT NOW!

You Have Never Seen Anything Like Phyto Test 80 Before – **This is the World Premier**

Have you purchased “Store Bought” testosterone boosters? How did they work?

I thought so, if they worked well you wouldn’t have read this far!

Phyto Test 80 is POWERFUL and UNIQUE

Phyto Test 80 is a **100% pure Testosterone**, naturally extracted in an FDA Registered facility that is GMP certified.

I know that may not mean anything to you...yet it means that you can have the added protection that all Phyto Test 80 is made in the USA and FREE of All Contaminants.

That literally limits the supply of this amazing natural testosterone, because the supply of raw material is limited and the patented concentration process is intense.

PLUS: the TOTAL production process used to extract the active ingredient and then purify and certify it takes several months.
